

CHARLES A JONES MANUFACTURING TRAINING PROGRAM IS RECRUITING FOR AN ADVANCED MANUFACTURING CTE INSTRUCTOR

As many of you may have heard Todd Frazee, the Charles A Jones Advanced Manufacturing Instructor, has accepted a position as the lead instructor at the Sierra College Advanced Manufacturing Program, effective 8/1/2024. Congratulations to Todd! We know that his professional work and educational experience will support the growth of the Sierra College program.

Todd's departure creates an opportunity for another educator or someone considering a transition from manufacturing, supporting the next generation of manufacturing excellence in our region through hands on manufacturing skills training.

The Charles A Jones Career and Education Center (CAJ) is the adult education school for the Sacramento City Unified School District (SCUSD). With the support of SVMA, CAJ launched the CAJ Regional Manufacturing Training Program in 2020. The program provides students with the basic skills for many entry-level manufacturing jobs. Recent grads are now employed by Siemens Mobility, Insight Manufacturing Services, and GNB Valves.

The CAJ Advanced Manufacturing Program currently offers curriculum in forklift driving & certification, warehouse management, OSHA 10 certification, electro-mechanical assembly, quality control, machining (CNC & manual), welding and manufacturing technician.

Forklift is offered as a one-day stand-alone class while the machining, welding, and manufacturing programs are offered as an 8-month program with 4 start dates annually.

For anyone considering pursuing a CTE BS degree attached is a flyer for an online info session (5/16) offered by the Sac St School of Continuing Education, including the Designated Subject Credential.

Last, attached is the latest program flyer set for the program, including class articulation/flow chart.

BACHELOR OF SCIENCE IN Career and Technical Studies

Degree Completion Program

Advancing career pathways for today's workforce

What can I do with a BSCTS degree?

Most students continue to work in their current field. However, you can do almost anything you want with your degree. As California faces a shortage of almost a million college-educated workers by 2025, having a degree will open many doors for career opportunity and advancement.

Program Benefits

- ✓ Receive academic credit for your work experience
- ✓ Accelerated course schedules at convenient times
- ✓ Real-world instruction and networking opportunities
- ✓ Personalized student services and advising
- ✓ Receive a Bachelor of Science degree from Sacramento State
- ✓ Springboard to a master's degree

SACRAMENTO STATE
Redefine the Possible

Online B.S. in Career and Technical Studies Program

Earn your bachelor's degree in a program tailored for you!

The time is now! Come and learn more about the Career and Technical Studies degree completion program. The program is designed to prepare individuals with practical, marketable skills to successfully enter new careers or advance in their current fields.
